In Warm Weather Prepare for Cold.
—BY PUTTING IN A—
KOHLER HOT AIR FURNACE.
DOUBLE RADIATING SURFACE FOR COAL.
THE MOST SUCCESSFUL HEATER EVER SOLD IN OUR COUNTRY.

This Furnace has been thoroughly tested during the last twelve years, and all are delighted to bear testimony to their ECONOMY in fuel, DURABILITY, entire freedom from Gas, smoke or dust, and perfect simplicity in arrangement.
It is self-cleaning, there being no place for the lodgment of the ashes; they fall back into the pit.
It has a Double Radiator, by which the hot air can be carried to a greater distance than by any other furnace.
We invite all interested to call and examine this splendid Furnace. If desired we will hand or send our Books containing hundreds of references and testimonials from solid people of the highest character. We manufacture the Furnaces ourselves with great care, and warrant every Furnace to be the most perfect and reliable ever sold. For sale, wholesale and retail, by

The Cup that Cheers but not Inebriates.

Since water has become the fashionable drink in Maine, numerous springs of this excellent beverage have been brought into notice, and some of our Maine springs are achieving a national reputation. Of one of these, the Lake Auburn, the Lowell Daily *Courier* speaks in complimentary terms. The *Courier* says: "A great many people do not quite like Merrimac river water as a beverage. Most of our wells are even worse than the river. What can be substituted? The Lake Auburn Mineral Spring Company has just started a big trade in its water, which is an admirable beverage, and if one simply uses it for drinking purposes the cost is trifling. Most people have an idea that a "mineral spring" water must have a peculiar taste—that it must have what Mr. Weller called "a smack of warm flat-irons about it," or some vile salty or alkaline taste. This is not so. Lake Auburn water is tasteless, colorless, pure, sparkling water. It has medicinal qualities, but they consist in its purity as much as anything. An absolutely pure water, nearly free from organic matter, and possessing only certain qualities which the taste does not discover, it is quite as efficacious in purifying the system as some water which "smells to heaven," and can be drank only by holding the nose. Such a water is not for use as a beverage; it is to be taken like other nauseous doses, as a medicine. Lake Auburn water is to all appearance and taste not only the purest, softest and most agreeable spring water, but it is said to act wonderfully on systems polluted by impure blood, or deranged in their organic functions. Twenty barrels of the water have lately been sold in Lowell, and it is coming into very general use."

STATE NEWS.

Androscoggin.

The *Journal* says: Only four weeks to the State Fair. Applications have been received by our hotel keepers and others, from all parts of the State, for board and lodging for Fair week, and many rooms already have been engaged. The overcrowding of Lewiston's and Auburn's hotels, last fall, has led many people to seek accommodation in private families, and the trustees of the State Fair are desirous of arranging some plan by which every available inch of space for lodging may be utilized. It has been decided to establish an entertainment bureau in some central place. Persons having rooms which they desire to let, or will consent to let, from public-spirited motives, for the four days, will report the fact to the trustees, who will assign occupants such as may be desired. Strangers who are unable to procure rooms at the hotels, will be directed to the bureau, and will there be assigned rooms such as they may wish to pay for. Our hotels have already procured a number of extra rooms in private houses. Large rooms in City Buildings and elsewhere have been hired, and will be furnished with cots. Some means will be devised to entertain hospitably everybody who comes to the city.

Aroostook.

The *North Star* says: Wednesday Aug. 3d, the large barn and stable of Silas Southard of Presque Isle, were destroyed by fire. It is supposed the fire caught from the careless use of a pipe by some of the workmen on the railroad who were sleeping in the barn.

The *Pioneer* says that Bart Donovan of Presque Isle, sold his trotting colt, "Black Dan," to B. J. Stevens, last week, for $350, to match his black mare Sarah Bernhardt. —Frank Albert, a wounded soldier who lately obtained $2,000 pension dues, has purchased for $1000 a house and lot.

The *Press* says that George N. E. Kimball who was treasurer of the committee of the Mechanic Blues having charge of the recent excursion to Lake Maranocook. He had about $100 in his possession, and instead of turning it over to the company went away with it. He was seen at Long Island Friday night. Kimball has not yet been arrested.

Kennebec.

The Augusta *Journal* says that a little son, seven years old, of Augustus Longfellow, Hallowell, was kicked by a horse, Friday or Saturday, causing a serious injury to the skull.

Lincoln.

The Sunday-school convention of Knox, Lincoln and Sagadahoc counties meets on the camp ground at Nobleborough, on Wednesday, August 17th. Rev. Smith Baker of Lowell, Mass., presides, and will teach the lesson for August 21st, viz: "The Manna." Friend Wm. Jacob of Clinton, delivers the address. The Knox & Lincoln Railroad give return fares at a reduction of nearly two thirds.

The wife of Henry O. Stanley, Esq., of Dixfield, one of the State Commissioners, died very suddenly of neuralgia of the heart on Friday, at the Maine General hospital at Portland, where she had gone to have a tumor removed. Mr. Stanley had left her only the day before in her usual health, and was at Wiscasset attending to the duties of his official position. Mrs. S. was an excellent woman, and her death is mourned by a large circle of relatives and friends. The funeral took place on Sunday at Dixfield—Rev. Mr. Munson of Canton, officiating.

Waldo.

The *Press* says that the exciting contest between the Odd Fellows lodges in Belfast some time ago and the decision of the Grand Lodge of the United States upholding that of the Grand Lodge of Maine revoking the charter of the Belfast lodge, has again stirred up. Tuesday, Mr. Castle of Belfast, in the name of the lodge, brought a suit against the Grand Lodge of Maine for $5000 damages. The writ was served by Deputy Sheriff Parker.

The barn of Henry Reynolds, at South Brooks, was struck by lightning early Sunday morning and totally destroyed, together with its contents, consisting of horses, cow, a pig, hens, fifteen tons of hay, harnesses, etc.; no insurance.

York.

As an example of what the guests at Old Orchard do of a rainy Sunday, a week ago Monday 1,337 letters, the largest amount of mail matter ever before made up in this office in one day, were sent out. Sunday, the 7th, it rained hard all day, and as a consequence, on Monday, 2,073 three cent stamps were cancelled and sent out. How is that for a dull season?

Great numbers of makerel are being caught in the bay near Old Orchard Beach. So many have sometimes been taken from nets in one day that the fishermen could not clean and salt them. The fish are mostly large and fat. Other fish are quite plenty.

CRETARY BLAINE AND THE HARTMANN CASE.

[From the Boston Journal.]

Ir. Blaine's letter to Henry Wehle, counsel for Leo Hartmann, the Nihilist, is ust such an one as might be expected from the clear-headed Secretary of State der the circumstances. It may be ld in homely terms that Mr. Blaine does tpropose to tell how he is going to le the wall until he comes to it. Mr. hle attempted a very clever dodge in interest of his client when he essayed obtain an authoritative statement as to at the United States Government would in case the extradition of Hartmann ould be demanded. It would be very nvenient for the noted Nihilist to know at what his prospects of safety might be this country. Mr. Blaine practically forms Mr. Wehle that Hartmann must e his chances. And at the same time administers a well-merited rebuke to a s of persons who seem to consider that y have a perfect right to know in ad- nce the conclusions and decisions of the rious departments of the Government d to have their individual opinions con- ered in connection with the determina- of such conclusions and opinions.

BOOKWALTER BECAME A DEMOCRAT.

[From the Cleveland Herald (Rep.)]

r. Bookwalter was a Republican. He is rich. He grew ambitious, and said o himself, "I must buy public honors ome sort." He looked about him. He w Tilden buy one nomination, and hop another. He said "By Jove, I'll a Democrat and that will fix it." So went across the aisle, and hardly had own warm in his seat before he bid for nomination and got it. Thus is the great ission of the Democratic party explained l illustrated.

ll the works belonging to the Sprague to were closed on Monday. It threw 0 men, besides women and children, of employment. The cause of the sing is the result of the anticipated re- oval of Trustee Chafee as Treasurer of Quidnick Company by the Sprague ily, and the injunction of the court re- ining him from controlling and using e funds of the company for running ex- nses. As he cannot obtain funds out- sufficient for his needs, and as some ealers are perplexed, not knowing who the legal financial agent of the com- ny, he is obliged to close. The mills in gusta are closed, but it will only be a short time. We understand that re is a prospect of an equitable settle- nt with the creditors, so that the pur- sers of the property in Augusta will ceive a warrantee deed, and the Spragues l come into possession of their Rhode nd property.—*Maine Farmer.*

THE PRESIDENT.

AILY ROUTINE OF THE SICK CHAMBER.

he routine in the sick room is some- at as follows: Immediately after the ssing of the President's wound in the orning, he is given the only substantial od which is administered at all during day, which consists of a small piece of ey roast beef, with a small piece of toast d milk. After eating he, as a rule, takes short nap of perhaps half an hour. After s nap he usually asks for a glass of ter, which is passed to his lips by Mrs. . Edson or one of the physicians in at- dance. For the first time since he was t he took on Monday a glass of water his hand and drank without assistance. is required considerable exertion, and ce then he has not attempted to help nself to anything. When awake Mrs. son usually reads to him from a news- per published in his home district, to ich he listens with apparently great in- rest. At noon he is given milk, to which m is occasionally added. This, however, the President dislikes, and has recently asked to be given raw milk, which is now mited him. His temperature is then ken by the physicians, and he is placed n the position which makes him most mfortable. Mrs. Garfield is by his bed- le the greater part of the time when the esident is awake, and very often admin- ters milk to him, which is the principal od given him at intervals during the day er his one substantial meal in the morn- . Very often the wound is examined ing the afternoon by Dr. Bliss to see if s discharging freely. In the evening, usual process of washing and dressing e wound is gone through with, and the esident is again placed in an easy posi- n and left alone with Mrs. Edson or lonel Rockwell and Mrs. Garfield, to ke another nap. It is noticeable that ter each dressing he falls asleep, which oves that the operation is a tiresome one. *Wash. Cor. Boston Journal.*

Secretary Blaine and family left Wash- ton at 2 P. M. Thursday and will arrive Augusta Friday evening. Mr. Blaine d family have been in Washington since t November and during that time he s borne a tremendous strain of excite- nt and responsibility. We are glad t he is coming home for much needed

The receipts of the Patent Office for fees amounted to July to $60,170, which is ger than the receipts for the same month any year for the past decade, and $4,- 50 in excess of the receipts from the same urce in July last year. July is usually e of the dull months of the year, due obably to the demand for labor in other rections. Even this large sum is over ,000 below the average for the preceding x months, during which the receipts ag- egated $391,910, against $40,825 for the rst six months in 1880. In March of the esent year the receipts ran up to $71,- 00. From these figures it would appear that the inventive talent of the country has by no means been exhausted.

The consumption of cigarettes in this country is rapidly increasing. During the year ending June 30, 1880, ordinary cigar- ettes, taxed $1.75 per 1000, yielded a rev- enue of $715,250. The same grade of cigarettes, paying the same tax, last year brought in a revenue of $993,981. The in- crease in revenue from this source alone was $277,722, representing an increased consumption of nearly 160,000,000 cigar- ettes.

She entertains liberally, whereas Mrs. Meynell-Ingram lives quietly.

A NOVEL STEAM LAUNCH.

FITTED WITH MACHINERY WHICH HAS NO VIBRATION AND CAPABLE OF BEING STEERED FROM THREE DIFFERENT POINTS.

At Pamrapo, N. J., there was launched recently a steam yacht called the General W. B. Franklin, which is remarkable for the introduction of a novel piece of ma- chinery, which gives the boat an advantage over all others hitherto built. The engine is called the "Colt disk engine," and was first tried in England, but the boat was not constructed to suit the machinery, and a trial was therefore made in this country to adapt a better form of craft for the en- gine. The trial was eminently successful. The engine is practically, so far as the con- trol of steam is concerned, an ordinary slide valve engine, utilizing the expansion of the steam in the same manner and even to a greater degree than most of such engines, but it possesses extraordinary advantages from the ease with which it can be con- trolled. In ordinary steam launches the noise and vibration on some occasions amount to a nuisance, and in many cases serve to mar the enjoyment of a pleasure party. The new "Colt disk engine" ren- ders the General W. B. Franklin absolute- ly free from noise and vibration, from the fact that all the working parts are enclosed in one casing and are lubricated by oil carried in by the steam. It has no dead centre and will start instantly in any posi- tion, being entirely under the control of the reversing lever, which is the only feature of the engine exposed to view, the whole apparatus lying so low in the boat that if necessary it can be placed in the centre of the cockpit and then be seated over. At present the boat can carry twenty-five per- sons with ease, but when her machinery is floored she can seat considerably more. The boiler, which is of steel, is specially designed. It has eight square feet of grate surface and 270 feet of heating surface, and was tested to 230 pounds water pressure per square inch before leaving the manu- factory. The principal dimensions are:—Keel, 44 feet; length over all, 49 feet; beam, 8 feet 8 inches on deck, and about 7 feet 9 inches on water line; depth, 3 feet 8 inches; draught, 1 foot 9 inches forward and 3 feet 6 inches aft; diameter of engine cylinders, 4 inch by 4 inch stroke; propel- ler, 32 inches diameter by 40 inches in pitch, two bladed.

THE MACHINERY.

The main body of the engine contains six cylinders, arranged in a circle and par- allel with one another, like the chambers of a revolver. The pistons take the form of a hollow plunger, one end terminating in a blunt cone, which beats continuously against the periphery of the disk. They are single acting, being subject to steam pressure upon the flat end only. Steam is admitted successively to the six cylin- ders from the steam chest, three pistons being constantly in action at different points of the stroke, thereby imparting a uniform rolling motion to the conical disk, which is steadied at its centre by a ball and socket joint and rolls upon the surface of the back plate which receives the full thrust of the pistons and protects the ball and socket from strain. There is a flat circular ring, a valve which receives motion from an ec- centric carried by a shaft which passes through the centre of the steam chest, which ring slides steam tight but perfectly free between the port face and a balance plate that prevents the steam pressure from acting on the valve and makes its movements nearly frictionless. The steam is admitted to and fills an annular space left in the steam chest outside the circum- ference of the valve ring, the eccentric mo- tion of which alternately opens and closes all the steam ports, successively admitting steam to the cylinders, from which it again escapes to an exhaust chamber formed by the inside of the valve ring, and thence through openings into the body of the en- gine, and is finally discharged by an ex- haust pipe. The engine is constructed to cut off steam at half stroke, but the cut off can be altered to any point from one-tenth to full stroke. There are none of the keys, colters and setscrews incidental to ordinary engines, and as the strains are always in one direction either knocking or pounding is impossible, while the various parts are all free and unconnected with one another, and in nearly all cases where they touch the contact is a rolling one.

The boat possesses lines of beauty which are very fine, both forward and aft. This was very noticeable yesterday, and was remarked by a number of gentlemen who had a thorough acquaintance with this kind of craft. One-fourth of Pamrapo turned out yesterday evening to see her launched. Many well known engineers were present. At half-past five the signal was given, and Miss Jennie Winston, of the Boccacio Opera Troupe, breaking a bottle of champagne on the bow the Gen- eral W. B. Franklin glided gracefully and swiftly out into the waters amid the cheers of the spectators and a harmonic chorus from trained female voices. A full head- way was gained almost instantaneously, ordinary boats requiring some time to gather speed; but this steam launch is built very wide in her beam and narrow in her water line. She was measured for displacement, and came to within half an inch of it. She was not now under a full pressure, but enough was seen to prove the assertion that she could do fifteen miles an hour. She is so constructed that one man can steer and fire her. She may be steered from the wheel, from amidships, or from the bow. The propeller makes 150 revolutions in a minute in the water. Her trial trip gave great satisfaction to the engineers and yachtsmen present.—*N. Y. Herald.*

Bangor, Aug. 11th, 1881.

State of Maine.

To the Honorable Board of Railroad Commissioners for the State of Maine.

The Bangor and Katahdin Iron Works Railway, a corporation duly organized under the laws of Maine, Aug. 24, 1881, respectfully represents that it has located its road agreeably to the terms of its charter from the depot of the Bangor and Pis- cataquis Railroad in Milo, Piscataquis County, through said town, Brownville, Williamsburg, and Township No. 6, Range 9, all in said Piscata- quis County, to the Katahdin Iron Works in said last named town, and said Railway herewith presents a map of said proposed route and a pro- file of the line of the same, together with a report and estimate thereof prepared by a skillful engi- neer from actual survey.

Wherefore your petitioners pray that you will approve said location and take such other and further steps in the premises as may be required by law, to the end that your petitioners may have and enjoy all the rights, benefits and privileges granted by sect. 6 of the Act of Legislature, ap- proved Feb. 2d, 1879.

Dated at Bangor, Aug. 8th, A. D. 1881.

BANGOR AND KATAHDIN IRON WORKS RAILWAY,
By FRANKLIN WILSON,

THE PRESIDENT

HAS ANOTHER COMFORTABLE DAY,

And Takes Considerable Nourishment.

[8 A M]

OFFICIAL

WASHINGTON, Aug. 11. The President passed an exceedingly comfortable night sleeping sweetly, with but few short breaks, and awakening refreshed this morning, at a later hour than usual At the morning dressing, just completed, it was found that the deeper parts of the wound had been emptied spontaneously, the quantity of pus secreted beginning to diminish Its character and the appearance of the wound are healthy. His temperature shows an entire absence of fever this morning and his pulse, which is less frequent than yesterday, is improving in quality At present it is 100 temperature 97 6, respiration 19 (Signed as usual.)

[12 30 P M]

OFFICIAL

The President is doing well to-day Besides a liberal supply of liquid nourishment at regular intervals, he has taken for breakfast with evident relish an increased quantity of solid food He continues free from fever, his skin is moist but without undue perspiration, his pulse is 102, temperature 98, respiration 19 (Signed as usual)

Despatch From the Post Master General

Postmaster Pearson has received the following

WASHINGTON, Aug 11

Noon—Dr Bliss says the President this morning is in far better condition than any morning since he was wounded

(Signed) THOMAS L JAMES

[4 30 P M]

UNOFFICIAL

The improvement in the President's condition, which became apparent yesterday continues without interruption All the pus secreted by the wound is now discharged spontaneously every day, that the quantity is not so large as heretofore does not indicate that any is retained, but is rather an evidence that the suppurating surface is decreasing in extent or in other words that the process of granulation and healing are going on favorably in the deeper parts of the wound The surgeons expressed the opinion that this is the best day the President has had since the middle of last week, or since the beginning of the febrile disturbance, which led to the operation of Monday The patient had, between ten and eleven o clock this forenoon, breakfast consisting of boiled chicken a piece of toast saturated with beef juice and a cup of tea In addition to this he has taken at intervals during the day milk, meat extract and other nourishment enough to make an aggregate of about [illegible] ounces of solid and liquid food. He has been free from fever throughout the entire day and his pulse has ranged from 100 at the morning examination to 10[illegible] at the present hour.

[7 P M]

OFFICIAL

Since the afternoon bulletin was issued the President's condition continued as reported until about 1 P M when the commencement of the afternoon febrile rise was noted In its degree it did not differ materially from that of yesterday His pulse is now 108 temperature 101 [illegible], respiration [illegible]

(Signed as usual)

[9 P M]

To Lowell

The Assistant Secretary sent the following telegram to Minister Lowell at nine o clock this evening

WASHINGTON Aug 11

The President's condition and progress continue substantially the same this evening as yesterday

(Signed) HITT Acting Secy

[11 20 P M]

UNOFFICIAL

Although the President's pulse and temperature are not as low to-night as had been hoped they would be the surgeons report that he has had a good day better than any previous day this week and that his appearance and general condition are improved He has taken since morning nearly two pounds of solid and liquid food without gastric disturbance, and although his pulse still indicates weakness, he seems stronger than yesterday He was sponged off and took his last allowance of nourishment about 9 P M and soon afterward went to sleep without anodyne This afternoon fever began to abate as usual, after the evening examination, and by half past ten his pulse had fallen to about last night's figure His temperature has not been taken since 7 o clock, but has apparently fallen in correspondence with his pulse, and there is every prospect that he will have another equally restful night. Dr Hamilton arrived from New York at 10 o clock

NEW YORK, Aug 11 A despatch from Beach Haven says that there were [illegible] guests at the Parry House and nearly all lost their clothing, most of them escaping with portions of the bed clothes to cover themselves Their baggage was burned with the house

The beach was crowded with guests, who considered their escape something miraculous The loss on the hotel will reach $30 000, but the loss of the boarders is unknown at present

When the boarders arrived at Camden this morning they presented a novel appearance Men and women were attired in variously fitting bathing suits, others in somewhat more appropriate but almost equally bad fitting garments All, however, appeared to appreciate their narrow escape too much to mind their otherwise ludicrous appearance.

THE INDIANS

Fears of an Outbreak

BISMARCK D T, Aug 11 A Tribune, Fort Yates special says that when Sitting Bull heard of the killing of Spotted Tail he said it was a fit ending for a fool Bull claims that he surrendered when he should have been on the war path.

Appeals are being made from settlers along the Missouri to send more troops to Forts Yates and Lincoln, as it is the opinion of the officers at Yates that the force is wholly inadequate to quench an outbreak.

Two squaws were caught carrying ammunition and guns into Sitting Bull's camp He undoubtedly means mischief, and if he says the word many of the young bucks at the agency will follow him The Indians are independent and trouble may be expected at any moment unless more troops are sent.

MISSOURI

A Nice Family Quarrel

ST LOUIS, Aug 11. A special to the Republican, from Hannibal, Mo, says a bloody double tragedy occurred at the town of Burton, Mo, yesterday. A man named Jackson insulted a lady named Langford The lady told her husband who at once hunted up Jackson and attempted to chastise him Jackson drew a knife and stabbed Langford several times, inflicting mortal wounds. Mrs Langford then appeared on the scene and shot Jackson in the breast, whereupon he turned on the woman and cut her slightly, two or three times, when he fell exhausted from loss of blood. Both Jackson and Langford will die.

VIRGINIA.

REPUBLICAN CONVENTION.

LYNCHBURG, Va, Aug 11. The Coalitionists adjourned at 2 A M. sine die, after having endorsed the regular Readjuster platform. The session and personelle was far inferior to that of the Straight outs. A majority of the Coalitionists left for home this morning but enough have remained to stifle harmony in the deliberations of the Straightouts The Straightout convention reassembled this morning at 9 The platform was read and, after much discussion on the debt plank, was adopted 56 to 31

Ross Hamilton, the leader of the Mecklenburg delegation thought that if they remained in convention after the adoption of a platform, that they would grossly misrepresent their constituency and they would therefore withdraw. The action of Hamilton and his followers was severely criticised by the president of the convention A committee on nominations has been appointed and will report shortly

The convention elected J W Cochran (colored) of Rockingham, Chairman of the State Central Committee, and A Spitzer, of Richmond, Secretary of the State Central Committee, and ex-officio Secretary of the State Executive Committee

The platform adopted by the Republican Convention declared no principle of the Republican party is of more vital importance to the interests of the country, than that pertaining to the sanctity of government contracts and declares the credit of the State should be protected, it pledges the Republican party of Virginia to redeem the State from the discredit that now hangs over her, in regard to her just obligations for moneys loaned her for constructing her internal improvements, demands that every dollar the Constitution dedicates to the State public school system should be sacredly applied thereto

It declared that the elective franchise is an every right that should be based upon the manhood qualification, and that we favor the repeal of the requirements of the prepayment of the capitation tax as a prerequisite to the franchise as opposed to the Constitution of the United States, and in violation of the conditions whereby the State was readmitted as a member of our Constitutional Union favors the repeal of the disqualification of elective franchise by a conviction of petty larceny and the infamous laws which place it in the power of a single Justice of the Peace, often times being more corrupt than the criminal before him, to disfranchise his fellow man

Resolved finally that we urge the repeal of the barbarous law permitting the imposition of stripes as degrading and inhuman contrary to the genius of a free and enlightened people and a relic of barbarism Adopted

The committee on nominations reported to the Convention the names of Gen W O Wickham of Richmond, for Governor, Maj J J M Yost of Staunton for Lieutenant Governor, and Judge Willoughby, of Alexandria, Va for Attorney General The report of the Committee was unanimously adopted Gen Wickham and Major Yost addressed the Convention declining the nomination but entreated the Republican party to make a firm stand and abide by the decision of the Convention The Convention then decided not to make any nominations as they deemed it inexpedient but conclude with great unanimity to hold fast to the principles of the Republican party, ignoring any and all propositions for a readjustment of the debt, either national or State

The State Central Committee was instructed to issue an address setting forth the actions and principles of the Convention At 1 30 o clock the Convention adjourned sine die It is generally believed that the result of the Convention will hold intact the Republican organization of the State, and that the Mahoneites will have few followers in the straightout ranks

SPORTING MATTERS

The Cornell's Fairly Defeated

VIENNA, Aug 11. The boat race between the Cornell University crew and Austria crew, selected from the four rowing clubs of Vienna, was rowed on the Danube to-day The course was a mile and a half against the stream round buoys and back to the starting post The Cornell crew had four lengths lead of the Austrian crew early in the race but they appeared exhausted when they reached the point in the course known as Burg Fabri, and when half the course had been traversed one member of their crew collapsed they then relinquished the struggle, the Vienna crew thus winning the trophy which is valued at [illegible]0 pounds

CIVIL SERVICE REFORM

Convention at Newport

NEWPORT, R I, Aug 11 The Civil Service Reform Association of the United States met at the Ocean House parlors this afternoon at two thirty It organized with the choice of George William Curtis of New York, as Chairman and Arthur Hobert, of Boston Secretary

Upon taking the chair Mr Curtis said this was the first National conference ever called on the subject of Civil Service Reform Civil Service Reform Associations have existed as local organizations and it has been thought best to call this conference for the purpose of interchanging thought and ideas from different parts of the country on the subject

The following resolutions were presented and passed in the order named

By Mr. Curtis Endorsing a bill introduced in Congress by Senator Pendleton for the remedy of the abuses known as the spoils system

By Dorman B Eaton That it is an important part of the system of competitive examinations that there should be local examinations of the candidates, and that the examinations and local boards conducting the same should be under the supervision of the National Civil Service Reform League

By Carl Schurz that the existing Civil Service Reform organizations be invited to form an association under the name of the National Civil Service Reform League, and that the Executive Committee of the New York Association be authorized to act as a Provisional Central Committee of said League, also making all other Civil Service Reform organizations subordinate to the League

By Everett P. Wheeler, of New York, endorsing the bill introduced in the House of Representatives by Mr. Willis, of Kentucky, at the last session, as a practical measure for the remedy of the abuse called political Assessment, and pledging the Association to use all honorable means to secure its passage

By Mr Schurz, Resolved that we are uncompromisingly opposed to the arbitrary removals from office as well as all interference by members of Congress with the exercise of the appointing power

After a brief address by Mr. Curtis the convention adjourned.

THE DECISION CONCERNING SHINGLE REFUSE A correspondent writes that the decision of the judges, to whom was referred the matter of throwing the sawdust and shavings from shingle machines into the Penobscot River will have a serious effect upon the shingle manufacturing business He says "In some of the mills the expense required to carry off and burn the sawdust would be so much that the machines will probably be replaced by other machinery, I understand that interested parties are taking active steps to have the law enforced to the fullest extent, which is to the effect that the sawdust from gangs, muleys, and, in fact, refuse of any kind whatever, shall be kept out of the river '

Freeman gave up his watch and money $27 While so doing a wagon drove up with a man and two ladies and the robber commanded them to stop also, and he escaped. This occurred this afternoon on the highway between Kittery and York in broad daylight." Careful inquiry last night failed to reveal the identity of any lawyer in this city by the name of Freeman.

OLDTOWN'S BUSINESS OUTLOOK. A correspondent writes The announcement that Hon. J. L Smith has bonded all the property belonging to the Veazie heirs in Oldtown, has created quite a little flutter of excitement in that community, and while nothing definite is known as yet, it is confidently hoped that it portends an increase of business. It is to be hoped that with the magnificent water power at that place and the large amount of land of easy access, an enterprise will now be started which will make Oldtown a thriving manufacturing town. Capitalists heretofore have attempted to establish themselves in business at that point, but for reasons which it is not necessary to state, have gone to other towns which were only too glad to hold out every inducement to them. Practical business men are now quite sanguine in regard to the outlook.

Five arrests for drunkenness were made in the course of an hour yesterday afternoon

DEATH OF MRS WOODS We regret that we are called upon this morning to announce the death of Mrs. Noah Woods, which occurred at about four o clock yesterday afternoon, from inflammation of the throat Although sick for several weeks, her death comes with a sense of suddenness upon the community, and of course as a shock of terrible grief to the afflicted family Mrs Woods was a lady of peculiarly amiable disposition and manners and occupied a prominent and respected position in society, and will be long remembered by very many people for her quiet and unostentatious benefactions She was surrounded by a beautiful home on Court street which gave evidence of art and culture where she presided with that grace and gentle dignity of manner that won for her a very large circle of friends who will sincerely mourn her demise The deceased had two sons by her former husband, the late William A Blake, one of whom William A, died a few years ago

SUPERB RAILWAY COACHES

New Passenger Cars for the E & N A Railway—A Detailed Description—A Word for the Officers

Two of the most substantially constructed and elegantly appointed passenger cars that have ever been seen in Maine (except, of course several elaborately finished palace cars now running over the principal roads in this State) arrived in this city yesterday morning from the Wason Manufacturing Co's Works in Springfield Mass where they were built expressly for, and in accordance with special instructions of the European & North American Railway Company In their style of architecture in which comfort utility and beauty are combined they present a striking contrast to the first class cars of a few years ago, and would naturally convey the impression that the limit of improvements in this direction had been reached The coaches are precisely alike in every detail and are numbered respectively 16 and 17 To describe them separately would be simply a repetition, therefore we will confine our description to one.

As we approach the car we are impressed with the brightness and beauty of the exterior decorations The ornamentation partakes somewhat of the prevailing fashion of Japanese designs The predominant color is a bright yellow, relieved by fanciful figures in contrasting colors and finely drawn lines of gilt On the sides midway of the car are oval panels bearing the number of the coach, the figures and the border being of the most exquisitely beautiful conception and workmanship Spanning the top of the sides of the car is a broad band of a delicate shade of green on which is inscribed in gold letters the words European and North American Railway The body frame is 57 feet 6 inches long by 9 feet 6 inches wide With the platform the car is about 67 feet in length The exterior finish is made of ¾ inch white wood panels with iron flat mouldings under window stools elliptical window and door tops The platforms are provided with the Miller patent coupling buffer, and the cars have the standard Empire vacuum brake Over the wheels are double elliptical springs The car is surmounted with an elevated roof, full decked with end hoods over the platforms

The interior of the car is especially noticeable for the harmonious elegance of its appointments and the rich and substantial appearance of its finish in all its details There is nothing gaudy—nothing flashy—nothing of the tinsel and glitter order, but everything is suggestive of good taste, of comfort and stability The whole interior is ceiled in the new style mahogany finish, with square window heads and fluted panels between and over the windows. The doors are also of mahogany, with drop sashes There are 34 seats in all, of Bunting's patent, with mahogany arm caps. They are elegantly upholstered with plain crimson plush There are seventeen windows on each side and two on each end The glass is 20 by 30 inches, with a spread of windows of 34 inches They are quite low and nearly as large as those of a Pullman car, enabling the passenger to more readily see the ground than is possible with the old style The sash is of cherry, double blinds with poplar slats shut out the sunlight

The decorated head lining is in harmony with the ornamental trimming of the exterior, and lends an air of richness to the interior. Meeting a stripe of bluish green there is a wide border of crimson, the whole relieved by arabesque figures of gilt, presenting an ornamentation that is at once elegant and tasteful. The metal trimmings throughout are bronze The very convenient square racks for holding parcels are of the same metal, and are of unique pattern. The height from the floor to the centre of the elevated roof is 9 feet 3 inches. The width of the aisle is 20½ inches in clear of the arm caps. In one corner on the right as you enter there is a closet provided with proper conveniences, a ventilator in the roof gives free ingress to fresh air. Three double centre lamps, of Williams & Page's new pattern give a soft and pleasing light of sufficient brilliancy to enable the passenger to read without inconvenience On each side of the door before mentioned there are eight Hitchcock ventilators, and ground, figured glass, and swinging ventilators over each end window.

The trucks are cast to the E. & N. A. R standard, four wheels, with French's standard 36-inch elliptical 5 plate, 3x11 32 in., over all. They are also provided with Hibbard's 4 coil 8x8 side-bar springs.

The cost of these coaches was between four thousand and five thousand dollars each.

These coaches are to be placed on the through day trains next Monday. Two others, just like them, are in course of construction, and will soon be ready for the road.

The European & North American Railway is now one of the best equipped lines in the country. Within a few years great and important improvements have been made. New steel rails have been laid; much of the road has been newly ballasted, culverts have been rebuilt, bridges have been strengthened, new rolling stock has been added from time to time, including the new locomotives recently mentioned in this paper, and everything possible has been done by the Company to meet the demands of the constantly increasing business

Ever since the inception of the road, Hon Noah Woods has been associated with it and as its President has displayed the most admirable executive ability.

Mr F W Cram, the very popular superintendent, has risen to his present responsible position by steady steps from the humbler position of freight clerk Mr. Cram is a superior telegraphic operator; and has a practical knowledge of every detail connected with railroading. He is not only immensely popular with the hundreds of men in the employ of the Company, as well as with the travelling public But has also the unbounded confidence of all the high officials by whom he is recognized as one of the most careful railroad men in the country

Mr J F Leavitt, the general ticket agent, is a gentleman well qualified for the duties of his responsible situation, and by his faithfulness and efficiency has won the highest esteem of the Management, and is justly popular with all with whom he comes in contact

A good word might be fitly spoken of the subordinate officers the gentlemanly conductors the faithful clerks, and other gentlemen connected with the E. & N A. Railway, but we will close this article with the simple statement that all have been tried, and their faithfulness honesty and efficiency have borne the most rigid tests

AMUSEMENTS

Haverly's New Mastodon Minstrels

The Ruskin Club will open the amusement season next Thursday evening, with a performance by Haverly's New Mastodon Minstrels, by far the largest and most complete Minstrel organization that has ever visited our city The company numbers forty six people forty appearing in the First Part Due announcement will be made of the sale of seats The Chicago *Telegraph* says

Mr Haverly must have smiled when he sat in his New York office Saturday night and footed up the receipts of his New Mastodon Minstrels last week Nothing in the way of minstrelsy has approached it, and it is quite certain that, barring the Bernhardt, the gross receipts for the week exceeded the combined business of all the amusement houses of Chicago The furore was not confined to the masses as in years past but extended to the better classes—merchants doctors lawyers, and professional people generally—men and women who have a reputation to keep as well. As to [illegible] It is estimated by the managers that full fifty per cent of the visitors last week attended a minstrel entertainment for the first time and the long row of carriages in front each evening suggested the grand opera on a gala night Of course, there is a reason for all this and it is undoubtedly due from the nature of the entertainment Mr Haverly started out with the determination to elevate minstrelsy in a social scale and to accomplish this he has devoted his wealth and his energy He is ably seconded by Manager Mack, whose youthful appearance contrasts strongly with his almost unlimited knowledge of every detail whether in the opera comedy, or minstrelsy proper

The Calais Races

A correspondent at Calais sends us the following concerning the race in that city Wednesday under the auspices of the Calais Driving Park Association

As it rained Tuesday night and most of the morning Wednesday it was thought that there would be no trotting consequently only two horses came to the wire in the three minute class and that race was postponed until the next day The two thirty four race was then called and the horses came for the word in the order given below

R. Seaborn, Woodstock g [illegible] Richmond Girl, distanced	
J Fitzpatrick St John, b m, Jennie	2 2 3
S B Hill, Calais, b g, Walter,	1 1 1
V C Hall Portland, blk Arthur	3 3 2

Time—2 38 2 39, 2 37

In the first heat the horses scored three times before the word was given Walter at once took the lead and going steadily throughout the heat, came in an easy winner by five or six lengths The Richmond Girl made a bad break during which she lost so much ground that she was unable to save a distance Arthur and Jennie made a good race for second place but the mare succeeded in getting her nose under the wire a little in advance

The second heat was more exciting, Arthur did considerable running and passed under the wire second, but he was set back and the position given to Jennie as she trotted under the wire close to his wheel

After making two attempts in the third heat the word was given, when Jennie left her feet and fell away behind. Arthur, pressed Walter on the back stretch and the latter broke This left them on even terms and it was "anybody's heat" until they reached the home stretch when Walter showed to the front and passed under the wire about a neck in advance of the black horse.

Where pangs the mortal flesh assail,
And give a bitterness to life,
Making the cheek with anguish pale,
Amid the fierce internal strife,
Then Sanford's Ginger soothes the pain,
And smiling Health looks up again

J W KITTREDGE Agent Elixir of Life Root

Dear Sir—Having suffered intensely for four years with disease of the kidneys after having during that time tried various medicines without obtaining relief. I was induced to try a bottle of your ELIXIR OF LIFE ROOT and I take great pleasure to say that one bottle of it completely cured me I recommend it as the only valuable and certain cure for kidney trouble I have ever seen I would add that before taking your medicine I had become so weak that I was unable to give up work Hoping that people who have suffered like myself may be as fortunate as to try your valuable medicine,

Truly yours T J ROMAIN.

STATEMENT
UNDER OATH.
A Startling Revelation of Suffering!
"Oh, My God, How I Did Suffer!"
"I Earnestly Prayed to Die!"

"I have been afflicted for twenty years with an obstinate skin disease, called by some M. D.'s Psoriasis, and others Leprosy, commencing on my scalp, and, in spite of all I could do, with the help of the most skilful doctors, it slowly but surely extended, until a year ago this winter it covered my entire person in form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there could be nearly a dustpanful of scales taken from the sheet on my bed, some of them half as large as the envelope containing this letter. In the latter part of winter my skin commenced cracking open. I tried everything, almost, that could be thought of, without any relief. The 12th of June I started West, in hopes I could reach the Hot Springs. I reached Detroit, and was so low I thought I should have to go to the hospital, but finally got as far as Lansing, Mich., where I had a sister living. One Dr. —— treated me about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, limbs, feet badly swollen, toe nails came off, finger nails dead and hard as bone, hair dead, dry and lifeless as old straw. O, my God! how I did suffer.

"My sister, Mrs. E. H. Davis, had a small part of a box of Cuticura in the house. She wouldn't give up, said 'We will try Cuticura.' Some was applied on one hand and arm. Eureka! there was relief, stopped the terrible burning sensation from the word go. They immediately got the Resolvent, Cuticura and Soap. I commenced by taking one tablespoonful of Resolvent three times a day, after meals, had a bath once a day, water about blood heat, used Cuticura Soap freely, applied Cuticura morning and evening. Result, returned to my home in just six weeks from the time I left, and my skin as smooth as this sheet of paper.

Messrs. FELLOWS & CO., St. John, N. B.

Gents: I have prescribed your Syrup (Fellows' Hypophosphites) in my practice, for some hundreds of patients, where its use was indicated, with quite satisfactory results. * * * *

J. A. MCARTHUR, M. D.,
32 South Common st.

ELDRIDGE SIMPSON, M. D., of Hudson, N. Y., writes

"I have tried the Syrup of Hypophosphites made by Mr. Fellows in cases of Consumption, and other Lung and Throat diseases, with the most gratifying results."

EDWIN CLAY, M. D., of Pugwash, N. S., writes

"I know of no better medicine for persons suffering from exhaustion of the powers of the Brain and Nervous System, from long continued study or the cough following Typhoid Fever, &c., &c.

CHANDLER CRANE, of Halifax, N. S., writes "I have used it freely in my practice, both in diseases of the Chest, as Consumption and Bronchitis, &c., and in infantile diseases of the prima via, or Stomach and Bowels, with eminent success."

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the persons addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $22 20 per thousand.

Stamps cut from Stamped Envelopes

cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at this office.

DOMESTIC POSTAGE

FIRST CLASS.

All Letters must be Prepaid.—Letters for the Mail in the United States, three cents the half ounce or single rate. City letters, two cents half ounce or single rate.

SECOND CLASS.

Newspapers.

All regular newspapers must be prepaid at the office of publication, at the rate of two cents per pound for each issue. The same law applies to dealers.

County papers free, except to letter carrier offices, i. e. papers coming to this office, if published in County, are subject to postage. Daily papers published in County, if delivered by carrier, one cent each, to be prepaid by stamps.

Postage to Canada—Same as in the States on letters and papers, prepayment compulsory; merchandise limited to 8 oz., postage 10 cents.

THIRD CLASS.

Postage One Cent for Two Ounces.

Books (printed and blank), transient newspapers and periodicals, circulars, and other matter wholly in print, proof sheets and corrected proof sheets and manuscript copy accompanying the same, hand bills, posters, chromo lithographs, engravings, envelopes with printing thereon, heliotypes, lithographs, photographic and stereoscopic views with title written thereon, printed blanks and printed cards.

FOURTH CLASS.

Postage One Cent for each Ounce.

Blank cards, card board and other flexible material, flexible patterns, letter envelopes and letter paper without printing thereon, merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings, bulbs, roots, scions, drawings, plans, designs, ornamental paintings in oil or water colors and any other matter not included in first, second or third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag or harm the person of any one engaged in the postal service.

Upon matter of third or fourth class the sender may write his own name or address with the word "from," without extra charge for postage.

Third and fourth class matter may be registered same as first class, on payment of the register fee of 10 cents.

ADVERTISED LETTERS.

All letters remaining in the office are advertised on Monday of each week. If not claimed in ONE MONTH thereafter, they are then forwarded to the Dead Letter office.

MONEY ORDERS.

Especial attention is called to the Money Order system, as a safe and cheap method of transmitting small sums through the mails. Orders are issued in sums of not more than fifty dollars. Larger amounts can be transmitted to the same person, at the same time, by additional orders.

RATES.

On orders not exceeding $15,	10 cents
Over $15 and not exceeding $30,	15 cents
Over $30 and not exceeding $40,	20 cents
Over $40 and not exceeding $50,	25 cents

Money Orders can also be obtained on England, Ireland, Scotland, Wales, Switzerland and German States.

Never put Money in a Letter—Always Procure a Money Order.

If money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be Registered. Money should never be enclosed in an ordinary letter.

Office Hours—From 8 A. M. to 5 P. M.

REGISTRY DEPARTMENT.

All valuable letters should be Registered, unless a Money Order is obtained. Under the present system of Registration, letters are transmitted with perfect safety.

Letters may be Registered by paying postage in full and a Registration fee in stamps, for—

United States,	10 cents
Great Britain and Ireland, and all Countries having a postal treaty with the United States,	10 cents

To the Honorable Judge of Probate for the County of Penobscot:

The undersigned, Guardian of Helen S. and Walter E. Plumly, minor heirs of David S. Plumly, late of Lincoln, in said County, deceased, respectfully represents that said minors are seized and possessed of the following described real estate, viz: The said Helen S. of Lot Twelve (12) in Range Four, and Lot Twelve in Range Five, in Burlington, in said County, see Registry of Deeds for said County, Vol. 452, page 26; and said Walter E. Plumly of one hundred acres of land on the westerly end of Lot Number Fifty-five in Woodville Plantation in said County, it being the same described in deeds recorded in the Registry of Deeds for said County, Volume 432, Page 26, and Vol. 391, page 573.

That it would be for the benefit of said minors that said real estate should be sold, and the proceeds thereof put out at interest, or otherwise used for their benefit.

She therefore prays that license may be granted her to sell and convey the above described real estate at public or private sale, according to the requirement of law.

To the Honorable Judge of Probate for the County of Penobscot:

The undersigned, administratrix of the estate of Levi Sargent, late of Brewer, in said County, deceased, respectfully represents that the goods and chattels, rights and credits of said deceased are not sufficient to pay his just debts and charges of administration by about two thousand dollars.

Wherefore your petitioner prays your Honor to grant her power to sell by license at public or private sale, and convey the whole of the following described real estate of the deceased, (including the reversion of the widow's dower therein), as the residue would be greatly depreciated by a sale of any portion, viz:

A house and lot in said Brewer, beginning on Centre St. 50 feet from Hancock St., thence southerly on Centre St. 50 feet, and from Centre St. said lot carries its width of 50 feet at right angles with Centre St. back from said street, being southerly half of a tract formerly owned by Chas. M. Dean, and all said deceased's real estate in said Brewer, to satisfy said debts, expenses of sale, and charges of administration.

Said described real estate is the same described in a deed recorded in the Registry of Deeds of said County, Vol. 285, page 515.

MAINE STEAMSHIP COMPANY.

Semi-Weekly Line to New York.

Steamers Eleanora and Franconia

Will, until further notice, leave Franklin Wharf, Portland, every MONDAY and THURSDAY, at 6 P. M., and leave Pier 38, East River, New York, every MONDAY and THURSDAY, at 4 P. M.

During the summer months these steamers will touch at Vineyard Haven on their passage to and from New York. Price, including stateroom, $5.00.

These steamers are fitted up with fine accommodations for passengers, making this a very desirable route for travelers between New York and Maine. Goods destined beyond Portland or New York forwarded to destination at once.

From Dec. 1st to May 1st, no passengers will be taken by this line.

HENRY FOX, General Agent, Portland.
J. F. AMES, Ag't, Pier 38, E. R., New York.

Tickets and State Rooms can be obtained at 74 Exchange Street. jun6tf

BOSTON,

VIA STEAMER FROM PORTLAND.

The first class steamers of this line leave Franklin Wharf, Portland, every evening at 7 o'clock (Sundays excepted).

Through tickets for sale at M. C. R. R. Station and on board steamers of the Inside Line.

This route affords superior advantages to those who desire to spend a few hours in Portland, and passengers not only effect a saving in fare, but avoid the expense and inconvenience of arriving in Boston at night.

J. B. COYLE, Jr., Gen'l Agent,
Portland.
